

ROOSEVELT DEFENDS ADMINISTRATION IN CHARACTERISTIC MESSAGE TODAY WHICH IS SUBMITTED TO CONGRESS

In Which He Urges a Re-enactment of
The Employers' Liability Act
Recently Declared Un-
constitutional.

ALSO FLAYS DISHONEST CORPORATIONS

Voluminous Document Read in Congress Today---
Singles Out Standard Oil Company and Says
It Has Been Chief Offender Against Law--
Disclaims Any Responsibility for
Recent Money Panic.

To the Senate and House of Representatives.

The recent decision of the supreme court in regard to the employers' liability act, the experience of the interstate commerce commission and of the department of justice in enforcing the interstate commerce and antitrust laws and the gravely significant attitude toward the law and its administration recently adopted by certain heads of great corporations render it desirable that there should be additional legislation as regards certain of the relations between labor and capital and between the great corporations and the public.

The supreme court has decided the employers' liability law to be unconstitutional because its terms apply to employees engaged wholly in interstate commerce as well as to employees engaged in interstate commerce. By a substantial majority the court holds that the congress has power to deal with the question in so far as interstate commerce is concerned.

As regards the employers' liability law, I advocate its immediate re-enactment, limiting its scope so that it shall apply only to the class of cases as to which the court says it can constitutionally apply, but strengthening its provisions within this scope. Interstate employment being thus covered by an adequate national law, the field of interstate employment will be left to the action of the several states. With this clear definition of responsibility the states will undoubtedly give to the performance of their duty with in their field the consideration the importance of the subject demands.

Compensation for Injured Employees.

I also very urgently advocate that a comprehensive act be passed providing for compensation by the government to all employees injured in the government service. Under the present law an injured workman in the employment of the government has no remedy, and the entire burden of the accident falls on the helpless man, his wife and his young children. This is an outrage. It is a matter of humiliation to the nation that there should not be on our statute books provision to meet and partially to atone for cruel misfortune when it comes upon a man through no fault of his own while faithfully serving the public. In no other prominent industrial country in the world could such gross injustice occur, for almost all civilized nations have enacted legislation embodying the complete recognition of the principle which places the entire trade risk for industrial accidents, excluding, of course, accidents due to wilful misconduct by the employee, on the industry as represented by the employer, which in this case is the government. In all these countries the principle applies to the government just as much as to the private employer. Under circumstances should the injured employee or his surviving dependents be required to bring suit against the government, nor should there be the requirement that in order to insure recovery negligence in some form on the part of the government should be shown. Our proposition is not to confer a right of action upon the government employee, but to secure him suitable provision against injuries sustained in the course of his employment. The burden of the trade risk should be placed upon the government. Exactly as the workman is entitled to indemnity for the injuries sustained in the natural course of his labor. The rates of compensation and the regulations for its payment should be specified in the law, and the mechanism for determining the amount to be paid should in each case be provided in such manner that the employee is properly represented without expense to him. In other words, the compensation should be paid auto-

matically, while the application of the law in the first instance should be vested in the department of commerce and labor. The law should apply to all laborers, mechanics and other civilian employees of the government of the United States, including those in the service of the Panama canal commission and of the insular governments.

Laws For Private Employees Needed.

The same broad principle which should apply to the government should ultimately be made applicable to all private employers. Where the nation has the power it should enact laws to this effect. Where the states alone have the power they should enact the laws. It is to be observed that an employers' liability law does not really mean mulcting employers in damages. It merely throws upon the employer the burden of accident insurance against injuries which are sure to occur. It requires him either to bear or to distribute through insurance the loss which can readily be borne when distributed, but which if undistributed bears with frightful hardship upon the unfortunate victim of accident. In theory it wages were always freely and fairly adjusted they would always include an allowance as against the risk of injury just as certainly as the rate of interest for money includes an allowance for insurance against the risk of loss. In theory if employees were all experienced business men they would employ that part of their wages which is received because of the risk of injury to secure accident insurance. But, as a matter of fact, it is not practical to expect that this will be done by the great body of employees. An employers' liability law makes it certain that it will be done, in effect, by the employer, and it will ultimately impose no real additional burden upon him.

There is a special bill to which I call your attention. Secretary Taft has urgently recommended the immediate passage of a law providing for compensation to employees of the government injured in the work of the isthmian canal and that \$100,000 be appropriated for this purpose each year. I earnestly hope this will be done and that a special bill be passed covering the case of Yardmaster Banton, who was injured nearly two years ago while doing his duty. He is now helpless to support his wife and his three little boys.

The Abuse of Injunctions.

I again call your attention to the need of some action in connection with the abuse of injunctions in labor cases. As regards the rights and wrongs of labor and capital, from blacklisting to boycotting, the whole subject is covered in admirable fashion by the report of the anthracite coal strike commission, which report should serve as a chart for the guidance of both legislative and executive officers. As regards injunctions, I can do little but repeat what I have said in my last message to the congress. Even though it were possible I should consider it most unwise to abolish the use of the process of injunction. It is necessary in order that the courts may maintain their own dignity and in order that they may in effective manner check disorder and violence. The judge who uses it cautiously and conservatively, but who when the need arises uses it fearlessly, confers the greatest service upon our people, and his pre-eminent usefulness as a public servant should be heartily recognized. But there is no question in my mind that it has sometimes been used heedlessly and unjustly and that some of the injunctions issued inflict grave and occasionally irreparable wrong upon those enjoined.

It is all wrong to use the injunction to prevent entirely proper and legitimate action.

(Continued on Page 10.)

BATTLESHIPS ARE SIGHTED

Buenos Ayres, Jan. 31.—The following special dispatch was received here Thursday evening:

"Cape Virgins, 4 42 p m.—In sight, making for the Magellan Strait, an American battleship. Judging by smoke on the horizon, presume it is the vanguard of the fleet bound for the Pacific."

MIKADO'S MEN

Are in Punta Arenas to Watch the American Battleship Fleet When It Arrives.

Punta Arenas, Jan. 31.—Two Japanese have come ashore here from the British steamer Crita. They are supposed to be in Punta Arenas for the purpose of observing the passage of the American fleet of battleships due here from Rio Janeiro in two or three days.

The British steamer Crita, Captain Hayes, left Liverpool December 19 for Valparaiso via Rio Janeiro and the Strait of Magellan. She sailed from Rio Janeiro January 7 for Punta Arenas.

FIRE DESTROYS GOULD MANSION AT LAKEWOOD

New York, Jan. 31.—"King's court," the \$300,000 mansion in Lakewood, N. J., built by George J. Gould for his son Kingdon, was totally destroyed by fire, together with thousands of dollars worth of famous paintings and antique furniture owned by H. L. Herbert, the "father of American polo," who occupied the residence.

Young Jay Gould, General H. S. Kearney and many others of Lakewood's millionaire colony, turned out to fight the flames and rescue Herbert's effects, but the conflagration spread so fiercely through the mammoth greystone structure that they were forced to flee to Georgian court, across the way, where they watched the \$400,000 property go up in smoke. Mrs. Herbert's jewels were saved.

"YEGGS" BLEW SAFE.

Fremont, O., Jan. 31.—"Yeggs" early this morning forced the hardware store of John Spohn at Helena, and blew the postoffice safe, escaping with \$200 in currency and \$25 in stamps. Fred Rutshaw was the target for bullets when the robbers ran out of the building. He was not injured.

NATIONAL BANK PLACED IN HANDS OF RECEIVER.

New York, Jan. 30.—Unable to meet the demands being made upon it, the National Bank of North America, at one time the largest of the so-called "money chain," went into the hands of a receiver for liquidation January 26. Charles A. Hanna, a national bank examiner, was assigned as receiver by W. B. Ridgely, Controller of the Currency.

HEROIC EFFORTS OF LIFE SAVERS WERE SUCCESSFUL

Nantucket, Mass., Jan. 31.—After a struggle of five hours against intense cold and a turbulent sea the life savers of the Coast station rescued the crew of the Newport tug Fredericka Schep, which was wrecked Thursday on Coakne Beach. Mrs. Charles Oversen, wife of the captain and her baby, who were on board, were also taken off the stranded vessel.

GOV. HUGHES WILL DISPEL ALL MYSTERY

AS TO HIS STAND ON NATIONAL
QUESTIONS IN HIS SPEECH
TONIGHT

LAUNCHING HIS BOOM

A Deal Said to Have Been Made to
Deliver All New England States
to the Governor.

New York, Jan. 31.—Any mystery as to where Governor Charles E. Hughes stands on national politics, will be cleared up by himself tonight. In a speech before the Republican club, he will launch his own boom. By tomorrow he will be squarely in the field as an avowed candidate. Rumors of impending deals are being widely circulated and generally credited. The latest is that Hughes' political advisers are perfecting a deal that will result in New York's governor entering the convention with the votes of New England, with Maine possibly excepted, New Jersey, Pennsylvania and certain other states which are now shouting wildly for their "favorite sons."

Murray Crane, United States senator, and Senator Proctor are suggested as the men who will do the work in "Yankeeeland." Senator Knox himself is reported to be delivering Pennsylvania after he has been shown that his own boom died aborning. It is understood that Herbert Parsons was told of a deal, and that his hurried departure for Washington yesterday was to warn the Taft forces that it was impending.

SENTENCED HIMSELF TO THE WORKHOUSE

Toledo, O., Jan. 31.—Police Judge Austin sentenced himself to one day in the Toledo workhouse Thursday in order to test the penalty he has been handing out to others.

"I'm going to ride over to the workhouse in the patrol wagon," said Judge Austin, "and I'll make bricks, too, or any other old work they have to do."

GLASS PLANT TO RESUME.

Lancaster, Jan. 31.—The East Lancaster window glass factory will resume work Monday. The Amalgamated scale was signed yesterday. This plant employs about 300 persons and its reopening means a great deal to the city.

ANARCHISTS PLOT TO DYNAMITE RESIDENCE OF MRS. POTTER PALMER

Chicago, Jan. 31.—The receipts of an anonymous letter, believed to be a hoax, is responsible for a police guard having been thrown about the residence of Mrs. Potter Palmer on Lake Shore drive. A close watch will be kept for several days to see that no crank or anarchist gets a chance to plant a bomb near the beautiful lake front castle.

INSANE FATHER SHOT CHILDREN ONE IS KILLED

Chicago, Jan. 31.—Wm. H. Meusch, a carriage maker, Thursday shot and killed one of his daughters, 5 years old, and fatally wounded two other children. The cause of the crime is not known, but according to the police Meusch had recently quarreled with his wife because of the children. Meusch called Gertrude, the oldest daughter, telling her to come to the carriage shop. As she stepped through the door Meusch fired a bullet into her abdomen, killing her instantly. He then called Jennie 3 years old, and shot her as she entered the shop. William, the two-year-old son, was the last victim to be called and his father shot him just above the heart. The two children were taken to a hospital, where it was stated that both of them would die.

PAYS HER DEBT BY MARRYING CREDITOR

Des Moines, Ia., Jan. 31.—Mrs. Alice Dutler, most noted woman railroad promoter in the world, thrown into bankruptcy recently, paid her largest creditor by marrying him. He is S. F. Moore of Coshocton, O., chief en-

gineer in construction of several of Mrs. Butler's railroads. His claim was for about \$7,000.

They were married secretly in St. Louis last week, immediately following the granting of a divorce to Mrs. Butler from E. F. Butler of Des Moines.

IDENTITY STILL A MYSTERY.

New York, Jan. 31.—No clue has yet been secured to the identity of the young woman whose body was found late yesterday afternoon floating in the "Big" reservoir at Central Park. The coroner thinks there is little doubt that the woman was a suicide.

SCIENTIST

OF ACKNOWLEDGED AUTHORITY
ANNOUNCES HIS BELIEF IN
SPIRITUALISM.

Sir Oliver Lodge, Principal of Birmingham University, Creates an Unusual Sensation.

London, Jan. 31.—An unusual sensation has been created both in the scientific world and among the public generally by the declaration of Sir Oliver Lodge that the existence of a future world has been definitely proved to him by spirit communications from friends now dead. Sir Oliver's position as principal of the Birmingham university and an acknowledged great weight to his declaration. Edmund Gurney, Richard Hodgson and F. W. H. Meyers, are three well known people with whom Sir Oliver declares he has communicated. "We were by no means convinced of their identity until crucial proof, difficult to imagine, had been supplied," is the statement of Sir Oliver.

ANNOUNCE LEWIS AS PRESIDENT OF THE MINE WORKERS

Indianapolis, Jan. 31.—Thomas L. Lewis of Ohio, has been elected president of the United Mine Workers of America to succeed John Mitchell. The announcement of the vote was made by the tellers in the national convention of the miners today, amid cheers. Wm. B. Wilson, of Pennsylvania, the only candidate opposing Lewis, also was cheered when he congratulated Lewis on the stage in front of the miners' convention. Lewis begins his tenure of office April 1.

AMERICAN WRESTLER WON.

Chicago, Jan. 31.—Fred Beell, the Wisconsin wrestler, easily won a victory from Fred Steurs of Canada by throwing him in two straight falls in the wind up of the show at the Casino last night. Chas. Olson of St. Louis agreed to throw any two men the management might select in 45 minutes, and accomplished the feat easily. He threw Joe Lasalle of Canada in 7 25 and Jim Twohy of Chicago in 8:05.

FATE

Of Harry K. Thaw
Now in Hands of
the Jury

A MURDER COMMITTED

When Young Man Took
Life of White, Insists
Justice Dowling

In Charge Which to Say the Least
Was Not Favorable to the
Defendant.

New York, Jan. 31.—The fate of Harry K. Thaw rests with the jury. At 11:30 this morning, after listening to an elaborate charge by Justice Dowling, the jury retired and began their deliberations.

The scenes in the court room this morning were devoid of dramatics. The heroes were over, and the jury was down to a crime committed and the punishment to be inflicted. Justice Dowling, by his charge, effectively cleared the atmosphere. He called the killing a murder and had impressed on these twelve men that their duty was to decide whether or not Harry K. Thaw knew what he did when he fired the three shots from his revolver that ended the life of Stanford White.

The jury was informed in emphatic language that it must not be swayed by any evidence of the character of Stanford White.

"The life of the humblest or most abandoned," the court held, "is equally entitled to the protection of the law as that of the most cultivated, refined or elevated." The judge riddled the "irresistible impulse" theory, declaring that "no expert matter rested on whether Thaw knew when he shot White that it was White he was shooting at, and that it was White that he designed to injure or kill."

"The heat of passion and a feeling produced by motives of anger, hatred and revenge," he declared, "is not insanity." The jury must believe that Thaw was actually insane at the time he shot White, before they could find him not guilty.

Foreman Gremmel then requested that the jury be given the exhibits in the case. The jury then retired.

Thaw, who was plainly highly nervous, was escorted to one of the prison ante-rooms, where his wife and mother soon afterwards joined him. Justice Dowling's charge to the jury leaned neither way, but the defense was plainly disappointed when Justice Dowling told the jury that it must not consider the charges against White in making up its verdict.

Justice Dowling's charge to the jury was one of the most voluminous ever presented by a magistrate in a murder trial in New York. It made more than 7500 words.

"You are not concerned with the question of the punishment," said the court, "which may follow a verdict of guilty at your hands. Your sole function is to determine if any crime has been committed, its grade and leave the question of the penalty to those responsible."

Justice Dowling concluded as follows:

"Should you find the defendant not guilty upon the ground of insanity at the time of the shooting of Stanford White, under the law as heretofore laid down, your verdict will be in the following form: 'Not guilty upon the ground of defendant's insanity at the time of the commission of the commission of the act charged in the indictments.' Should you find the defendant guilty, you will indicate by your verdict the crime of which you so find him guilty."

THUGS ATTACK CITY WATCHMAN

Cleveland, O., Jan. 31.—Stephen Wasielewski, watchman at the city hall, was attacked by three thugs while in the council chamber early today, shot, beaten over the head with a bill, robbed of \$300, and thrown unconscious from the balcony to the floor below where he was found by the janitor. His skull is fractured and he will probably die.

COLLAPSED

IN COURT ROOM AND MAY NOT LIVE TO KNOW VERDICT OF JURY.

Mrs. Dora McDonald on Trial for Murder Completely Prostrated. Other Sensations.

Chicago, Jan. 31.—The bribes, tricks that have centered about the Dora McDonald murder trial in Judge Brentano's court reached the sensational point Thursday when Judge Brentano personally summoned Clifford B. Woodridge, suspended policeman, and permitted him to be accused on the stand of having sold state secrets to the defense. It was a "graft" bomb.

The examination of the policeman was a battle of objections and counter charges such as never before had been known in the criminal court.

Admissions were made which the state declared proved graft plots worthy of grand jury investigation. The detective's denials, however, were complete.

This sensation followed the dramatic breakdown of Mrs. McDonald, who collapsed in the court room. She herself thought she was dying; others believed the same thing. It was necessary to adjourn the trial for a time and permit two physicians to administer heart stimulants.

The tragic suggestion that Mrs. McDonald might not live through the trial was followed by other sensations.

Men's \$10.00 suits and overcoats now \$6.85 at Hermann's Clearance Sale.

Grip and Bronchitis

Mr. and Mrs. Christian Geisler, of 3434 A Street, Philadelphia, Pa., Have Just Celebrated Their Golden Wedding. Mr. Geisler Has Been Cured of Chronic Bronchitis, Mrs. Geisler of Grip and Indigestion by Duffy's Pure Malt Whiskey.

In a letter just received Mr. Geisler wrote: "I had a very bad case of chronic bronchitis. After trying other remedies was cured by Duffy's Pure Malt Whiskey. My wife had grip and indigestion, and is being rapidly restored to health by Duffy's Pure Malt Whiskey. We can see a daily improvement in her. We have been married over fifty years. I send you this testimonial with pleasure, as I wish others to be benefited by Duffy's Pure Malt Whiskey as we have been. I heartily endorse it as a tonic-stimulant."

Duffy's Pure Malt Whiskey

is an absolutely pure distillation of malted grain, great care being used to have every kernel thoroughly malted, thus destroying the germ and producing a predigested liquid food in the form of a malt essence, which is the most effective tonic stimulant and invigorator known to science; softened by warmth and moisture, its palatability and freedom from injurious substances render it so that it can be retained by the most sensitive stomach.

Sold by druggists, grocers and dealers or direct. \$1 a bottle. Illustrated Medical Booklet containing a few of the many convincing testimonials received from grateful men and women who have been cured and doctor's advice sent free. Duffy's Pure Malt Whiskey Co., Rochester, N. Y.

THIS OFFER WITHDRAWN FEB. 5TH

Oregon Prospecting and Developing Co. owns three high grade quartz claims in Jackson county, Ore. The company has spent upon our Gold Point claim, about 40 ft. now; assays show \$100 ore, with average \$35. Total fixed charges \$1 per ton; no bad conditions whatever. We are assured a \$50,000 property by expending \$20,000. Our capital is only \$50,000, paid value \$1 per share, full paid and non-assessable. \$100 now buys 500 shares of Treasury stock. I personally guarantee business-like management to all, and will refund investment at the end of six months if not entirely satisfied. My bank refs. in Western National Bank, Louisville, Ky. Address: V. H. COOK, Railroad Contractor, Louisville, Ky.

OHIO LEAGUE OPENS APRIL 23

SIX CLUBS HAVE POSTED FORFEIT MONEY—RICHMOND MAY NOT ENTER.

President Quinn Will Decide in Official Ball—Schedule Will Be Arranged Next Week.

Formal organization was effected by the Ohio State League, at its meeting at the Neil house, Thursday afternoon. The four charter members, Lancaster, Marion, Mansfield and Newark, voted to take in Springfield and Lima, thus insuring a six-club league. Other cities are knocking at the door of the league and it is expected it will eventually be an eight-club league.

J. A. Davidson represented Lancaster, Wollenweber, Marion; Paul Sturges, Mansfield, Secretary Hopkins, Newark.

Springfield was represented by Edward J. Ransick and Lima by J. J. McIntyre. J. F. DeArmond of Hamilton was also in attendance but through a misunderstanding did not bring the forfeit with him. He says this will be put up by Monday. In the event it is put up the league will look for another city. Piqua and two or three other towns could be considered if Hamilton comes to the front. Otherwise the league will be a six-club affair.

Clarence Jessup of Richmond did not appear nor did he send a message to explain his absence. His absence caused no mourning and, "Richmond should come into the league, overtures will have to be made by Jessup. It is not vital that the Indiana town shall join."

Conditions in all of the cities were reported to be excellent. The new league is popular with the fans and President Quinn is confident of a successful season.

One thing that will make the league a success is the low salary limit insisted upon by President Quinn. The limit was placed at \$1,600 a month and it is President Quinn's purpose to see that all clubs live up to the rule.

The season is to open on April 23, no special significance being attached to the numerals. President Quinn was instructed to decide upon an official ball. He will ask for bids and accept the best bid on the best ball. The league president is also to prepare a schedule.

Nothing can be done with regard to the schedule till Monday, when it will be determined whether Hamilton is coming in.

Ferd Drumm, who will play on the Lima team, was present. He says the prospects in Lima are excellent.

Ed Ransick made a suggestion that appealed to his fellow magnates when he described a system that provides a "ticket" that will entitle the bearer to admission to one game of each series. It will be sold at \$2.

There are many ladies in each town who are interested in baseball and it is thought that the opportunity to take advantage of the special rate will be welcomed by them.

BOTSFORD GOES TO SPRINGFIELD

Pitcher Botsford of the Ralstons, has been signed by Manager Ransick for Springfield. Manager Francis recommends him highly. He played in the Three-I league part of last season, finishing in the Iowa State league. He also played in the Wisconsin State league. He is looked upon as a coming pitcher.

RANSICK BUSY

Columbus, Jan. 31.—Before leaving Columbus Manager Ransick of the Springfield club, signed Bert Gray, an outfielder, who has been playing with the Ralston team in this city. Gray is a promising player. He is above the average in base running, and has been a clever batsman in amateur company, hitting .319 in the Sunday League in 1906, and .320 in the Saturday afternoon league last year.

Having been notified when control of the island will again be turned over to them, the Cubans can put in some of their time looking for another excuse to resume their family quarrels.

Doctors make a married man tired—If they are of the "certain" variety.

Instead of regretting yesterday get busy and do something today.

ELK'S DANCE

GIVEN THURSDAY NIGHT WAS A THOROUGHLY ENJOYABLE FUNCTION.

Many Members of the Local Lodge With Their Wives Attend the Terpsichorean Event.

Thoroughly delightful and perfect in its appointments, was the dance given Thursday evening by the B. P. O. Elks in Assembly Hall, the dance being the first of a series of social functions to be given by the order. The hall was elaborately decorated with red and white hearts and with streamers of red and white ribbons.

Music for the dancing was furnished by Stevens' orchestra, and while many couples took advantage of the delightful strains to enjoy the light fantastic, many played cards, tables for the players being placed in the balcony. Supper, which was served at 10 and 11 o'clock, and was in charge of Caterer Kuster, was in four courses and one of the most elaborate menus ever served at an Elk dance. The menu was as follows:

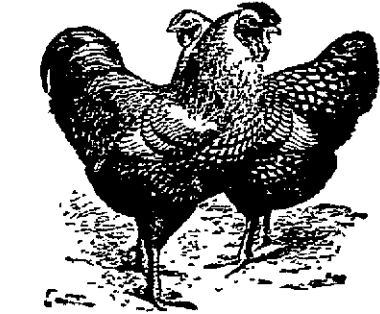

- Olives Pickles Celery
- Baked Squab Dressing
- Julienne Potatoes
- French Peas in Tinsals
- Sliced Tomatoes Chicken Salad
- Virginia Dare
- Bisque Ice Cream Strawberries
- White and Caramel Cake
- Coffee

Those present were: Messrs. and Mesdames Fred Evans, W. B. Wingard, J. F. Cherry, S. S. Cochran, E. J. Maurath, B. F. McDonald, C. H. Cole, William W. Maholm, W. W. Knauss, Daniel Altschul, Frank Bolton, Oscar Scheidler, John H. Swisher, W. H. Sedgwick, W. H. Smith, Charles A. Smith, J. N. Wright, J. C. Brennan, G. R. Kimball, C. E. Hollender, J. D. Bader, C. Hemstead, W. C. Collins, John Braddock, Wm. P. Young, Wm. Holler, Edward Altheimer, W. E. Foley, F. T. Maurath, A. C. Davis, W. C. Wells, W. E. Miller, J. A. McGonagle, F. J. Bader, J. P. H. Stedam, F. M. Schimpf, John Meredith, Eugene Koos, G. E. Besanency, T. Johnson, F. M. O'Hara, A. R. Schaller, W. C. Wells, Harry Roedel, Mrs. John Higgins, Mrs. Harry Starr, Mrs. Thomas Daly, Mrs. C. HOW TO ECONOMIZE

These days, when prices are going skyward on everyday eatables, and how to keep expenses down is a problem in every family. And

We Are Willing to Help You Solve It, if You Will Let Us

STOP AND THINK—That 1, 2 or 5 cents saved on an article, say for one year, amounts to quite a sum. And this you can do by trading with us. As we have said in our last notice, we hire no extra help to to run after trade; we have done away with the old expensive way and give out patrons the benefit. All we ask of you is to call and leave your order at our store or if you cannot call, send it to us, and we guarantee you absolute satisfaction. It is very gratifying to note that there are still a large number of people that think as we do, that it is not necessary to have an extra man and rig to call for their orders, because the extra expense necessarily falls upon them in the form of higher prices (as the expense must be paid out of the profits), and have shown it by their liberal patronage. Following we quote a few prices.

Funny, Isn't It, How a Man Will Hunt All Day

For a money loaner whom he has heard will loan money for 6 per cent when the best he has had offered him was 8 per cent? This is only a saving of 2 per cent, yet the same man will still persist in paying a credit grocer from 20 to 25 per cent more for the goods used by the family, rather than walk across the square to the cash grocer, where he could save ten times 2 per cent on almost anything used on the table.

There are TWO RULES in force in our store that insure fair play to our customers and ourselves—The first is, it requires 16 ounces to make a pound, and the other is that it requires 100 cents to buy \$1.00 worth of goods of us.

Coupon FREE, Friday and Saturday. One 25 Cent Can of Our Best Baking Powder.

This coupon entitles the holder to receive, absolutely free, one 25c can of our Best Baking Powder with each large sack of our Best Flour. Every sack guaranteed to give satisfaction.

Free! Free!

Free Demonstration of Toledo Biscuits, Cakes and Crackers at our store on Saturday. Everybody invited. Bring your friends with you. It will pay you.

Preparatory Services.
Rev. Mr. Applegate, pastor of the
Woodside Presbyterian church, will
hold preparatory services Saturday
evening at 7:30. All members and
friends are requested to be present
Oakleaf Found in Columbus.

Albert N. Oakleaf has been located
at 141 East Eleventh avenue, Colum-
bus, and notified of the fact that the
Philippine Insurance company of
Washington is anxious to discover his
whereabouts.

Licking Bank Officers.
At a meeting of the directors of the
Licking County Bank company of
this city, the following officers were
elected: President, W. N. Fulton,
vice president, W. A. Veach; secre-
tary and treasurer, W. C. Miller.

Barrel Race a Hit.
The barrel race on roller skates
given by Manager Snyder of the Pal-
ace rink Thursday night, was a big
hit and a scream from start to finish.
Three contestants entered and George
Rohn came first under the tape for
the prize. The race was such a suc-
cess that the spectators asked that

50 Fathoms Deep

Way down on the bottom
of the sea under three
hundred feet of water is the
favorite home of the codfish.
The ice-cold water of Norway
and the North Atlantic is his
joy. He has the power to grow
fat under severe surroundings.
The same natural power is in

Scott's Emulsion

of Cod Liver Oil. Nature her-
self put it there. This power
produces new flesh and new
life in those who suffer from
wasting diseases.

All Druggists: 50c. and \$1.00.

the race be repeated, and the genial
manager has decided to have another
contest of the same nature some time
in the near future. A large crowd
was present and enjoyed the sport.

Bartenders to Meet.
The Bartenders' Union will meet
Sunday morning February 2, at 9:30.
Business of importance. 31-2t

Car of Corn.
Wm. Bowers will have another car
of corn Monday. Leave orders at 19
South Fourth. Both phones. 1t

Review Club.
The Review Club will convene on
Saturday afternoon at the home of
Mrs. B. M. East, 19 Wyoming street.

Two Fighters Arrested.
Two fighters that were arrested
last night by Officers McClure and
Callan were before Mayor Atherton
this morning. They were each given
\$1 and costs.

Poodle Dog Case Dismissed.
The Snor-Lucas, Rickert poodle
dog case came up for another hearing
under the electric lights in Mayor
Atherton's court last night and was
dismissed for want of evidence.

Pastor Very Ill.
Rev. H. M. Wiesecke is confined to
his home with a severe attack of the
grip and will be unable to conduct
services Sunday. Sunday school will
be held at 9 o'clock, and the Ladies'
aid Society will meet at 2 o'clock in
the afternoon.

Located at Needles.
M. W. Staugh, a former Newark
resident, is now permanently located
at Needles, Calif., where he is con-
ducting a barber shop successfully.
Mr. Staugh formerly resided at
Stockton, but he found the climate
there too damp.

A Most Unique Reception.
Is that of the three hundred and
twenty (320) Birds which will be
given for one week in Newark, be-
ginning Saturday morning. Plan for
the reception at Edmiston's com-
mencing Saturday morning. It will
be a most fascinating affair.

Free Demonstration.
The Pittsburg Cash Grocery gives
a free demonstration on Saturday of
the Toledo biscuits, cakes and crack-
ers. They also give away on this oc-
casion a can of baking powder with
every sack of flour provided you clip
the coupon from their big ad. and
bring it with you.

Delicious Oranges.
Mr. Frank P. Kennedy of the New-
ark Trust company, was the happy
recipient Friday morning of a box of
delicious oranges sent to him direct
from "Sunny Grove," Merritt Island,
Southern Florida, by Mr. Emil Kies-
wetter, president of the Ohio Na-
tional Bank, Columbus. Frank did
not forget his friends, and as long as
they lasted, handed them out.

At Fifth Street Baptist.
There is no abatement of interest
in the services at the Fifth street
Baptist church. The devotional
songs, the prayers, the preaching and
the testimonials coming from differ-
ent parts of the house, all bore evi-
dence of the devotion and love of
God's people when rightly possessing
the Christ's spirit. The outlook for
a precious meeting tonight is well as-
sured. The hour of meeting is 7:30.
No services Saturday night.

Central Church of Christ.
The audience attending the revival
last night took all of the seats in the
large auditorium and a number of
men found seats in the gallery. The
minister's theme "Unpardonable Sin"
commanded the attention of every per-
son. Two ladies came to confess

Christ at the invitation and two
young men were baptized at the close
of the service. Services tonight at
7:30, sermon at 8, subject, "Where
Art Thou?"

Monthly Cemetery Report.
Superintendent A. J. Crilly of
Cedar Hill cemetery, Friday made his
report to the Board of Service for
the month of January. There were 26
interments during the month, which
brings the total interments to date
to 9,595. Of the 26 interments 13
were males and 13 females, 12 were
married, 10 were single and four
were widows. The receipts for the
month were \$633.30.

The Sunny South.
Mr. G. H. Long, South Side Square
store, has just returned from a busi-
ness trip via Chicago and St. Louis,
to various points in Oklahoma, Texas
and New Mexico. He reports mild,
dry and very beautiful climate; in
the lowlands mosquitoes, but in the
highlands flies, all is sunshine. Mr.
Long is so delighted with the oppor-
tunity of the South land that he will
make it his home in the distant fu-
ture.

False Alarm of Fire.
The Central, East and North End
fire departments were called to
South Park at 3 o'clock this after-
noon to the Stewart Bros. & Alward
furniture store. Smoke was issuing
from the basement but the fire could
not be located in the building. A
man thawing the pipes in the rear of
the grocery had built a fire, and the
smoke entered the cellar of the
furniture store and caused an
alarm to be turned in.

Pine Street Revival.
A large crowd attended the Pine
street revival last evening and gave
the most marked attention to Evan-
gelist Dillan's great sermon on "Not
Saved." Many were moved and ex-
pressed a desire for the Christian life
and some made a full surrender to
the Lord. There will be services to-
morrow evening. The sermon this
evening will be on "God's Last Call."
There will be a meeting for
men only Sunday afternoon at 3
o'clock. Evangelist Dillan's sermon
to the men will be on "Modern Sod-
om, Its Streets, Alleys, Etc." This
will be a plain, red hot talk to the
men, and a great crowd is expected
to be present.

HOW TO PROLONG LIFE

Advice of Our Beloved Poet, Dr. Ol-
iver Wendell Holmes.

If there is one desire more strong-
ly implanted in the human breast
than another as we reach maturer
years, that desire is to prolong life.
Dr. Oliver Wendell Holmes when
asked how to live long replied: "Get
a fatal disease and then take care of
yourself."

We want to say to the people of
Newark who are reaching maturer
years if you feel you are not as
strong as you used to be you need
not get a fatal disease to prolong life
but keep the digestive organs in good
condition, and the bodily tissues from
wasting by taking our delicious cod
liver and iron preparation, Vinol.

Vinol is not a patent medicine, but
a delicious modern cod liver prepara-
tion without oil, made by a scientific,
extractive and concentrating process
from fresh cod's livers, combining
with potentiate-of-iron all the medi-
cinal, healing, body-building elements
of cod liver oil, but no oil.

Mr. Joseph Ban's of Decatur, Ill.
in his seventy-eighth year, says that
owing to Vinol he feels stronger and
younger than he has for many years.
There are hundreds of old people
in this vicinity who need just such a
strength maker and tissue builder as
Vinol, and we ask them to try it on
our offer to return money if it fails
to give satisfaction. Frank D. Hall,
Druggist, Newark, Ohio.

PERSONALS

Miss Edna Hall of Delaware is the
guest of Miss Mable Phillips.

Mr. Jacob Dubinsky of Mt. Vernon
was a Newark visitor on Thursday.

Messrs. John M. Mitchell and Les-
ter Redding were in Mansfield, Thurs-
day.

Born, to Mr. and Mrs. Thomas Gib-
lin of Malden avenue, Thursday, a
daughter.

Messrs. William C. and Frederick
Vogelmeier transacted business in Co-
lumbus Friday.

Mr. Henry Crego of Plain City is
visiting his brother, Mr. Smith Crego
of Baker street.

The three children of Mr. H. E.
Wilson of South Fifth street, are
quite sick with croup.

Miss Florence Bowman of Levitt &
Bowman, has been in Columbus on
business for the past few days.

Miss Stella Thompson went this
morning to Pittsburg, where she will
be the guest of her sister for a few
weeks.

Mrs. Birdie Faber has returned from
a visit at Columbus where she pur-
chased a large consignment of goods
at the B. and O. freight sale.

Miss Marjorie Evans of Granville,
has returned home after spending a
few days with friends in Newark, and
while here attended the Woodman
dance.

Mrs. George Cummins, wife of the
night watchman at the Panhandle
crossing at Cedar street, who has
been quite sick, is reported a great
deal better.

Mrs. B. F. White of 20 Cedar street,
who has been quite sick for the past
four or five weeks with the grip and
bronchial trouble, is fast improving
and is now able to be up and around.

Mrs. Frank Fisher of Wellsburg,
W. Va., is the guest of her sister,
Mrs. Ella Fisher of Tuscarawas
street, who has been quite ill for the
past couple of weeks but is now fast
convalescing.

Ezekiel—"Say, Eliza, how many
Ohio Birds did you say were going to
be at Edmiston's Saturday and stay
there a week?"

Eliza—"Three hundred and twenty
is what I said."

Ezekiel—"Well, I swan to good-
ness! Where do they all come from
and what will he do with them all!"

Men's \$20 suits and overcoats now
\$14.85 at Hermann's Clearance Sale. 31-2t

OIL & GAS NOTES

(Granville Times.)
The Heisey company is building a
rig on Miss Hattie Everett's farm,
west of town.

The Columbus Gas and Fuel com-
pany expects to drill in the Wm.
Owens well on North street today.
Drillers started to spud Monday
on the No. 3 well on the B. S. Ever-
ett farm west of town for the Heisey
company.

The drillers of the Everett com-
pany well on Titus Hankinson's farm
in the McKean field, expect to get
the lime tomorrow.

Drillers struck the lime yesterday
at 150 feet on the R. J. Owens farm
on Burg street, which is being drilled
by the Everett company.

The Crawford Natural Gas com-
pany, well on the Frank Sorever farm
in the McKean field, was retubed on
Sunday, and the gas turned into the
line.

The John Deyo well in the McKean
field belonging to the Columbus com-
pany, which came in last Thursday
for one million, has been shot since
and the volume increased to two mil-
lion.

ELECTRIC RAILWAY EMPLOYEES ESTABLISH INSURANCE FEATURE

Newark Will Be Headquarters For Chapter Con-
sisting of Five Hundred Members, Embracing the
Railway Men Between Columbus And
Zanesville and City Carmen.

One of the most important matters
that has ever come up in electric rail-
way circles is the proposed sick, ac-
cident and death insurance associa-
tion, which has been agitated for some
time. The organization will include
all the employees and officers of the
Ohio Electric Railway company, in all
its departments. Already delegates
have been selected to attend a conven-
tion of the employees of the different
lines to be held in Cincinnati on Wed-
nesday, February 5. This will include
delegates from all the different lines
and divisions of the company. The
chapter composed of the interurban
men between Columbus and Zanesville
and in the cities of Newark and Zane-
sville, will be located in Newark.

At the meeting of the delegates to
be held in Cincinnati will be present-
ed the constitution prepared by in-
struction of the convention previously
held. They will also determine upon
a form of by-laws for chapters, and on
all matters that may be properly pre-
sented to them.
At the completion of the business of
the convention in Cincinnati the dele-
gates will return to their respective
divisions, at which time a meeting
will be held of all the officers and
employees, when officers will be elect-
ed and a permanent organization ef-
fected, and while the officers will be
members of the association they will
not be permitted to vote. The New-
ark chapter will have a membership
of about 500.

BIRD WEEK AT EDMISTON'S

As announced in our issue yester-
day, tomorrow, Saturday morning,
the great Bird Week and Reception to
the 320 Ohio birds commences at the Ed-
miston book store.

All the birds of Ohio will be there
to welcome all their friends and will
be shown in the finest form. You
will see how they look, as many of
them will be shown in natural plum-
age. You will be told all about their
songs, how they build their nests, how
they rear their young, how they live
what they eat, how they fly, in fact
all that you want to know about our
320 Ohio birds will be told you in their
great work which is ready for Newark
acquirers.

They will have a great display. All
the tall birds, the short birds, the fat
birds, the lean birds, the song birds,
the game birds—in fact all that have
ever passed or do pass a short season
in Ohio are to be at Edmiston's a
whole week.

And there will be a bird man there
to tell you all about them and how to
better make their acquaintance.

We predict as big a Bird Week for
Newark as was held last week in
Zanesville where over two thousand
people attended the Bird Reception
there.

There is no subject which is agitat-
ing the people of Ohio more today
than nature study, and a knowledge
of our Ohio Birds is becoming essen-
tial to all well regulated homes.

The Birds of Ohio as shown at Ed-
miston's have cost more than \$12,000
to secure in the form they will be
shown.

You will learn tomorrow at Edmiston's
all about the Bird Reception
and how to get an invitation from all
the 320 Ohio birds to visit you at
your home.

Come and see the birds.

FOR RENT.

For Rent—Three fine rooms. See John
Tucker or Mr. Phalen, 71 1-2 East
Main street. 31-2t

Plain But Unpleasant Truth.

Among the orators at the McKinley memorial at Columbus Wednesday night, was Hon. Walter B. Ritchie, of Lima, Ohio, one of the most prominent and highly esteemed Democrats of the State, who may be honored with his party's nomination for governor the present year. The State Journal copies from Mr. Ritchie's eulogy some very forceful remarks applying to existing conditions in the state and the country. We copy the following from the Journal's report:

"Though speaking as a Democrat, he praised the stupendous work of McKinley as a maker of tariffs, and added: 'If he were here tonight we would have to tell him that of 126,000 men employed in 583 manufacturing in Ohio 60,000 are idle. We would have to tell him that 320,000 freight cars in the country are idle on side tracks. If he were here he would ask the cause. He would ask if the country were not prosperous and we would tell him it was. Then William McKinley would find a way to put these men to work and these cars in motion. He never breathed a breath that was not for the progress and the growth of his native state. McKinley would call on you to see that no obstacles were placed in the way of the progress and the grandeur of Ohio.

"No man will go down to his death with the heart strings of so many people touched as there were when he died. Then we were buried in gloom. Like a great star of hope came the words of his successor—that his policies would be carried out. These words were borne on swift wings, and just as swiftly was confidence restored."

Mr. Ritchie's remarks are certainly reminiscent of how transient that confidence has been and how far it is removed today from what the people hoped at the time of the Roosevelt utterance. Mr. Ritchie spoke the unpleasant truth as to present conditions in plain and forceful terms.

POLICE BUSY

MAKE ARRESTS
GET FIREARMS

Lisbon, Jan. 31.—The police found and confiscated several more magazines of fire arms today and continue to make dozens of arrests on charges of conspiracy against the government. Premier Franco appears to be getting the upper hand again.

Among those arrested within the past few hours are many members of the house of peers and chambers of deputies who protest against violations of parliamentary immunity from police interference.

King Carlos has been encouraged by the success in squelching the malcontents activity and is now strongly supporting Premier Franco.

Easy to buy, easy to try, the best, wholesome, appetizing breakfast is Mrs. Austin's famous pancakes.

Fortune Ranges at Keller's. If

AMUSEMENTS

ROSAR MASON STOCK CO.

The Rosar Mason stock company played to another large audience last night and tonight the company will present a complete and correct dramatization of the great English novel, "The Idler," now called "A Woman's Temptation." The management promises an elaborate production. On Saturday afternoon the funny comedy "My Bosom Friend Bowser," a laugh from the rise to fall of the curtain. On Saturday night the great western sensational five act drama "The Younger Brothers." Right after the performance on Saturday night, the management will give away a \$70 phonograph and 35 records. The audville features will change at each performance. Don't fail to see the Oksar Sisters in the Teddy Bear song at the matinee Saturday.

HUMAN HEARTS.

On Tuesday evening, February 4, the stage at the Auditorium will be devoted to the presentation of the popular and highly successful play, "Human Hearts," with a company of superior excellence and strength. The author of the play is an actor of wide experience and fully under-

presentation and production, as directed by the past master of stage craftsmanship, Henry Miller easily explains the phenomenal success this piece has attained. Over a half million people saw this play in New York city alone during the 500 performances. "The Great Divide" will be given by a superb company. Lester Louergan will play the leading man's part, and Adelaide Nowak the leading woman's role.

ORPHUM THEATER.

A show that should satisfy the most exacting is surely being offered at the Auditorium this week. The opinion almost unanimously expressed is that the bill offered this week is one of the most artistic and meritorious ever put on. Rudolph Askeland the famous violinist is already the subject of much talk in Newark for there has never appeared in this city a violinist of Mr. Askeland's attainment. If you want to laugh there are Hickman Bros. and company, in a sketch which is very funny and one that sets the house in an uproar. The Ross Sisters, singers and dancers, come in for much ap-

FAMOUS CHARACTERS IN THE PLAY

HUMAN HEARTS.

stands the art of play making from the standpoint of both the spectator and the actor. His effects are produced quickly, but none the less does he hold patent sway over the passions of his auditors. The play is almost too well known to require more than a passing word upon the plot. The main thread of the story centers around Tom Logan, who is unjustly accused of murder, and sentenced to life imprisonment. His wife, Jeannette, who is a proud ambitious woman, runs away with an old lover and goes to New York. Even in a woman degraded as she is, the instinct of motherhood prompts her to return to the old home to try to gain possession of her child, Grace. She is frustrated in her design, and new evidence being submitted to the governor of the state, he pardons Tom from jail. Jeannette dies, her paramour is arrested for the murder of Tom's father, and Tom marries Ruth Larkins, and the clouds of adversity are dispelled by the sweet sunshine of a true woman's love.

THE MAN OF THE HOUR.

No other play produced in the United States in many years has been the subject of so much favorable comment and enthusiastic commendation as "The Man of the Hour," which has been running since last November in New York city, and which will be given here in the Auditorium on Friday night, February 7, by a cast containing not the name of a single actor who is not in the vernacular, "way up" in the profession. Here are some examples:

Mr. William Winters, the veteran critic of the New York Tribune—"A play at last, that means something!"

Mr. William Archer, the celebrated London critic and essayist—"A play that is alive, forcible, direct, and unmistakable!"

Mr. Bronson Howard, dean of American playwrights, author of "The Banker's Daughter," "The Henrietta" and "Shenandoah"—"The best play yet written by an American writer."

GREAT SOUTHERN THEATER.

Much talk is centered upon the engagement of Henry Miller's company in "The Great Divide" which is announced for Friday and Saturday, February 7 and 8 at the Southern theater. Columbus, with this notable drama by William Vaughn Moody. Mr. Miller has reached the zenith of his career as a producing manager. Never has an American play by an American author won such instant recognition at the hands of the most discriminating reviewers. "The long awaited American" many critics have termed it. The unquestioned tower and intense human appeal of this masterpiece of dramatic literature, as well as the intelligent and highly artistic

Dyspeptics

Give instant relief in Sour Stomach, Heartburn, Nausea, all disorders of indigestion and dyspepsia. Pleasant and economical. Medium size, 25c; Large, 31c. Handsome aluminum, bronzonium, etc. Druggists or mail.

REMINISCENCES OF
NEWARK DOCTORS

To attempt to give a graphic, as well as succinct account of the early physicians of Newark and the import, but part they played in molding the character of our now thriving city, would require the pen of one more gifted than myself, and I feel that I am not wholly adequate to the task of doing full justice to these brainy men, who have long since passed from the stage of action.

I will confine myself in these few brief reminiscences to those more prominent figures who played their part on the stage before the early sixties. And among the more prominent ones who figured in the early fifties I would mention Dr. John Q. Brice. He was a gentleman of the old school, a Virginian by birth; a man of fine presence, of a strong personality, and wielded a powerful influence in molding the character of our city in early times. He had a large practice and was looked upon as a model practitioner.

Later Dr. B. W. Brice, father-in-law of Judge Kibler of this city, came to the front as an able practitioner, and had the confidence of our people up to the time of his death. He was of a genial and social nature, and gathered around him many warm personal friends. He was a safe practitioner and had the confidence of the people to a very eminent degree.

Dr. Dickinson, an English physician, also played an important part in the early history of medicine in our city. He was a polished gentleman, and was considered an exceedingly able physician as well as surgeon.

Dr. Edward Stanbery was contemporaneous with Dr. Dickinson. He was a man of charming personality and had the confidence of the community not only as a safe practitioner, but also a man of vast learning and erudition. He was extremely fond of the chase. He was a great hunter and my early recollections of him are when I saw him arrayed in his English hunting suit accompanied by his dogs, on his way to the woods in search of game. He was not only an able physician, but also possessed those social qualities which go to make up the polished gentleman.

Dr. Daniel Marble was another prominent practitioner of those times. He was of a literary turn of mind and was for years the editor of the Newark Gazette, one of the leading periodicals in our city at that time. He was a busy practitioner as well, and stood very high in the community as a man thoroughly versed in his profession. His son, Edward T. Marble also occupied a conspicuous place as a medical practitioner. He was versatile, an able writer for medical journals, and was looked upon as a leading man in his profession.

Dr. L. L. Ballou was also a leader in the medical profession at that time. He was noted for his humanity, and never refused a call, caring very little whether there was any money in it or not. He counted his friends by thousands, and was looked upon not only as a safe practitioner, but as the best friend among the poor and unfortunate.

Drs. Fuller and Skeer were also prominent in the profession in early days and were highly esteemed among the community.

Dr. Albert Barrows was also a very able practitioner. He was a man of large and imposing appearance and inspired confidence. He was a man of strong personality, a man of large reading, and was of a philosophical turn of mind. He was very fond of "blooded horses," and when his time was not occupied with his professional duties as a recreation he amused himself by cultivating a taste for fine blooded horses. I can never forget his kindness to me in my early professional career. He often called at my office to give a word of encouragement, and would frequently invite me to visit a patient with him, which I considered a great honor. He always stood up for the honor and dignity of the profession and had a profound contempt for quackery in all its forms.

Dr. Thomas H. Roe was also a conspicuous figure in the medical profession at that time. He was of English extraction, and was a fine operating surgeon. He had a large and lucrative practice. He was very fond of hunting, and my earliest recollections of him was when he wore a hunting suit, surrounded by his hounds. Few men could wield a knife with greater skill than he.

Dr. Vail was another practitioner at that time who also stood high in the profession.

Dr. John N. Wilson was a leading practitioner in the early history of our city. He was a man of large information, a very skillful physician, and an occasional writer to medical journals. He was the leading member as well as founder of The Licking County Medical Society, and took a deep interest in its meetings. He also took a part in everything pertaining to the welfare of our city, and was considered as one of our most progressive citizens. His death was looked upon as a public calamity, and he is held in grateful remembrance by his fellow citizens.

Dr. Hamill came to the front in those days as a leading surgeon, and was considered one of the best sur-

geons in Central Ohio. He was a man of fine address, and was known not only as a safe physician, but surgeon as well.

Dr. J. R. Black came to Newark just at the close of our great Civil war and soon built up a large and lucrative practice. He had been a surgeon in the army, and while he was an able practitioner he was also of a literary turn of mind and was a writer for many of the leading periodicals of the day. He was a great book worm and when not occupied with the duties of his profession he was busily engaged in writing. He wrote a book entitled "The Ten Laws of Health," which had a large circulation. The writer was most intimately acquainted with him and always found him a genial polished gentleman.

Dr. B. F. Spencer came to our city in the early seventies. He was a man of commanding appearance, a fine scholar, and of a genial nature, and won many warm friends. He always took a deep interest in everything pertaining to the medical profession and was a model practitioner. Dr. James Larimore, who recently passed away, brings us down to the present time. He was a safe practitioner and was known more as a surgeon than physician, having been surgeon for the Pan Handle railroad for over 20 years. He was a close student and had many warm friends among his patrons. His early death was sadly felt by his brother practitioners, who admired him for his many warm traits of character.

It is extremely doubtful whether any other city in our state can boast of so formidable an array of medical men in the past as our own city. It should be an incentive for the younger members of the profession to cherish their memories and strive to emulate their virtues.

There are but four medical practitioners now living who embarked with the above in the early sixties, namely, Drs. Speer, Brooke, Sook Sr., and myself, and while we, too, in the very nature of things will soon have passed from the stage of action and be gathered among those who have preceded us we trust that posterity will do us full justice and remember us for the part we shall have taken in our attempts at alleviating the wants of poor suffering humanity.

HOWE BILL
IS DEFEATED

THE MEASURE SOUGHT TO LEVY TAX ON QUASI-PUBLIC CORPORATIONS.

Would Have Added \$600,000,000 to State Tax Duplicate—Republicans Against Bill.

Columbus, Jan. 31.—The Ohio Senate defeated the proposed bill to levy a tax upon the franchises of the quasi-public corporations of the state. The Ohio House of Representatives voted down a proposed amendment making the exemption from taxation on personal property \$200 instead of \$100.

For the first time it was claimed that it would add \$600,000,000 to tax duplicate of the state, and for the second it would exempt many millions. In the upper branch it was pleaded that the companies were taxed sufficiently and in the lower branch it was argued that to exempt the property would only increase the burdens of the poor to a greater extent, even though the amendment seemed to be in their interest.

The general result is the leaving of conditions in the state just as they have been since the present constitution was adopted in 1851. If there is to be any reform in the taxing laws it must come through the proposed amendment to the constitution giving the General Assembly larger powers in this direction. The decisive vote upon the Senate bill which owned Senator Frederick C. Howe of Cleveland, as its author, leaves no hope of reconsideration. Nor is there any possibility of the house reconsidering its action in defeating the exemption amendment of Representative John Lehman of Sandusky county.

Following the lead of Governor Andrew L. Harris in opposing the Howe bill no Republican supported the measure in the Senate.

SERVICE BOARD MADE GOOD CONTRACT WITH WATER CO. FOR HYDRANT RENTALS

City Has the Right Under the Contract to Use Any Number of Hydrants for Such Time as May be Required at the Regular Price---Board Well Pleased With the Contract for It Will Be a Saving to the City.

The recent water works problem is in a fair way of solution as an amicable agreement has been reached by the Board of Public Service and the old Water Works company.

Friday morning the Board, and Mr. Veach, representing the Water Works company, signed a memorandum of agreement by the terms of which the city is enabled to rent from the company just as many hydrants as they may desire, and for as long a period as they may wish. Under its terms the agreement may be nullified at any time the board may wish to do so.

The agreement was drawn by City Solicitor Frank Bolton, according to the proposition made the city by Mr. Veach at its last regular session. The Board is greatly pleased with the arrangement for it will save the city quite a nice little sum of money until such time as a final completion is made of the city's water works system.

Under the Fulton ordinance bonds would have been issued in the sum of \$85,000, bearing 4-1/2 per cent. This would have amounted to \$3,925 per year. The sum would not begin to complete the plant and the same amount of bonds would have to be issued yearly for a period of at least three years and the interest would keep piling up.

Under the present arrangement the Board claims that as soon as water is turned into the new mains it will only be necessary to use 43 of the old company's hydrants, which will cost the city a yearly rental of \$2,064. This will be a saving to the city of \$1,861, the difference between the interests on \$85,000 worth of bonds and what the 43 hydrants will cost in rentals.

The board has shown good business sagacity in making the agreement and they are being commended for the successful stand which they have taken. Following is a copy of the agreement:

MEMORANDUM OF AGREEMENT.

Whereas, the Council of the City of Newark, of the State of Ohio, passed an ordinance, No. 1731 "Authorizing the Board of Public Service to enter into a contract with H. M. Verrill to supply water for fire hydrants to the City of Newark, Ohio, which said ordinance was passed by said Council on the 4th day of September, and is now in full force and effect in law.

Now, then, in consideration of the foregoing ordinance, and the payment of the rentals of hydrants from the first day of September, 1906, to the present time on the basis of the former agreement, and upon the further consideration of the payment of rentals monthly as the same shall become due, the said H. M. Verrill

agrees to furnish to the City of Newark, Ohio, water from the Newark Water Plant for the same price and under the same conditions as the contract which terminated September 1, 1906. The said water to be furnished for fire purposes and for public buildings and institutions, etc., as under the said contract provided, and said water shall be furnished by the said Verrill under this contract as long as the board, officers or municipal authority having control of the construction or operation of the Municipal Water Works shall require. Provided, further, that should the board, officer or municipal authority having charge of the construction or operation of the municipal water works deem it necessary to reduce the number of hydrants now used by said city, they may do so by notifying the agent in charge of said water works that they so desire to do so, and said H. M. Verrill agrees he will furnish such number of fire hydrants for such length of time as said board, officer, or municipal authority having in charge the construction or operation of said municipal water works shall require.

In witness whereof, the said City of Newark, Ohio, by its Board of Public Service, and the said H. M. Verrill, by William Allen Veach, his agent, do hereby set their hands this 28th day of January, 1908.

COOPER MET USUAL SUCCESS IN PITTSBURG

Received Thanks from Hundreds While in the Smoky City.

The following article, taken from the Pittsburgh Press, describes the results of L. T. Cooper's visit to that city, and the effect of his new preparation as told by people who had become convinced of the soundness of Cooper's theories with regard to the human stomach.

Cooper believes that the human stomach in civilized races has become greatly weakened. He claims that most ill health of the present generation is due to this fact. The article is as follows:

"L. T. Cooper is meeting with the same astonishing success in Pittsburgh as in other cities. For the past few days many thousands of Pittsburgh people have called at his headquarters to talk with him.

"Cooper's prophecy, made upon his arrival, to the effect that before he left Pittsburgh thousands would realize that his theory is correct and would come and thank him for what his medicine had done, is rapidly being borne out.

"On Monday an astonishing number of people called to express their gratitude to Mr. Cooper. Judging from what some of these people had to say to a Press reporter, when interviewed,

Cooper's claim that the human stomach is degenerate is distinctly verified.

"One of the most unusual statements was made by Mr. C. W. Woods, of 103 South Highland Street. He said: 'For four years my wife was in very poor health. She was weak and thin, with a hectic flush and cough. Physicians said she had consumption. It certainly inclined to believe them. It certainly looked as though her days were numbered, and there appeared to be very little ground for hope.

"Shortly after Mr. Cooper came to Pittsburgh I began to hear of wonderful results that had been obtained by persons who had tried his medicine. So I got some for my wife. She had taken it only two days when she was relieved of a tapeworm 42 feet long. She began to improve immediately—has gained seven pounds since she began taking the medicine. She feels splendid and looks very much better. If any one doubts this statement I would be pleased to have them call at my house and verify it."

The Cooper remedies are becoming justly famous. We sell them. City Drug Store.

TORPEDO WARSHIPS.

Formidable Craft to Carry Maxim's New Explosive.

BIG GUNS NOT TO BE USED.

Experts Say Maximite Will Propel Projectiles With Unerring Aim at Seven Miles—Ship Planned With Fifty Tubes That Could Sink Fleet of Dreadnoughts.

As a result of the invention by Hudson Maxim of a new and powerful explosive known as maximite, which can be used as the propelling power for torpedoes, the navy department is drafting plans for a battleship which will be a complete revolution in that type of warship, says a Washington dispatch to the Kansas City Star.

The torpedo now in use is propelled by compressed air, but this has a limit. The maximite torpedo would have the means within itself by reason of the secret powder it will hold to generate a gas as its propulsive power.

The new ship instead of big guns will have broadside batteries of torpedoes of the highest speed. These torpedoes can be propelled at a speed of sixty miles an hour, are unerring in aim up to seven miles and cannot be diverted from their course.

The great weight now utilized for big guns, barbettes, superimposed turrets and batteries will be put into additional armor plate, especially along the water line. The new vessel will carry only a secondary battery of long range rapid fire guns for use in repelling torpedo boat attacks. It is believed with its battery of torpedoes it will be able to destroy and sink any war vessel within range of it before the guns of the enemy can be made effective.

Such a vessel of the size of the present battleship could be provided with a broadside of, say, fifty torpedoes, effective at from 10,000 to 12,000 yards, and with the increased armor it could fearlessly approach within two miles of the greatest guns now known to any navy. The discharge of a broadside of torpedoes at that distance would demoralize a whole fleet of Dreadnoughts. It is also pointed out by experts that if it should happen that the new torpedo battleship should ever get into close quarters it could, if so provided, launch a submarine boat or two, and a sea fight would be summarily finished in favor of the new warship.

Naval experts say that the proposed idea is worth putting into practice. The ship could be built for about \$8,000,000, which is \$2,000,000 less than the cost of a Dreadnought. Its fighting value would be twofold—first, ability to approach the biggest warships now afloat or to be built within the next five years; second, the specially formidable class of torpedoes of unerring aim and great velocity would be of far greater destructive capacity than the guns of a dozen of the present battleships.

It is understood that if the government should adopt the view of Representative Hobson, which was endorsed by the president, for an annual expenditure of \$60,000,000, or would make one special appropriation of \$50,000,000 for the navy, the navy department will construct one torpedo battleship as an experiment.

THE CUNNING CHINESE.

Scheme to Beat Immigration Laws Discovered in San Francisco.

Despite the rigid examination given by the immigration inspectors to incoming Chinese it has been known for some time that the inspectors were being deceived by Asiatics who alleged they were born in San Francisco, and the other day one of the schemes used to delude the inspectors was discovered, says a San Francisco correspondent of the Kansas City Star. In order to prove that the Chinese did live in San Francisco, as asserted by them, the inspectors have been in the habit of asking the location of well known buildings, streets and car lines. To these questions many of the Chinese were able to give a satisfactory answer, and the inspectors had nothing to do except to admit them.

H. M. North, United States commissioner of immigration, discovered a map in an immigrant's possession showing Chinatown as it was before the fire, and the fraud was then made clear. It carried instructions how to answer questions regarding the plan of the city and of important events of the past. Commissioner North believes that copies of these maps have been sent to China and that after having studied them the Chinese would come to the United States, assert that they were born here and demand the right to land.

Longest Cable Ropeway.

Work is at present in hand on the construction of what is claimed to be the longest cable ropeway in the world. It is being constructed by a German firm and is intended to connect the collieries of the Societe de l'Industrie Charbonniere et Miniere de Turkestan, situated about fifty miles from Samarkand, Russian Turkestan, with the nearest railway station, says the Philadelphia Record. Hitherto the coal has been transported by camels, the journey on account of the very hilly districts occupying five days. The new ropeway, which will be fifty-four miles long, is intended to carry from eight to ten million pounds (a Russian weight equal to thirty-six pounds) a year, and the trolleys, which will each hold twenty pounds, will travel at a speed of six miles an hour.

OBITUARY

MRS. ANNA COMSTOCK.

Granville, O., Jan. 31.—Mrs. Anna Comstock, widow of the late Matthias W. Comstock, a life long resident of Newark and Granville, died at her home on South Main street, in Granville, at 4:30 o'clock Friday morning after an illness of six months with a complication of diseases. Mrs. Comstock's maiden name was Anna Clark and she was born at Croton, this country, 65 years ago. She married Mr. Comstock July 28, 1867. After their marriage they lived in Newark where Mr. Comstock was for a number of years a prominent and prosperous business man. He died April 3, 1891. After his death Mrs. Comstock removed to Granville, where she has ever since lived. She was a prominent member of the Baptist church of Granville, and had also been a member of the Fifth street Baptist church of Newark previous to removing to Granville. She was a hard working member of the W. C. T. U. and was also a member of the Daughters of Rebekah. She is survived by one brother, Augustus Clark of Granville, and two sisters, Mrs. John DeBow, of Granville, and Mrs. Watson Carlock of Alexandria.

The news of the death of this most estimable woman will be received with deep regret by many persons in Licking county where she was so well known.

The funeral services will be held at the Baptist church Sunday afternoon at 1:30 o'clock, conducted by the pastor, Dr. C. J. Baldwin, and the interment will be made in Maple Grove cemetery.

REDMOND REDDING.

Redmond Redding, one of the oldest residents of Licking county, died at his home in Bowling Green township, Friday morning at 6:30 o'clock aged 75 years. Deane was due to apoplexy and paralysis, he having sustained a stroke six years ago. Three children, John and Lydia of Bowling Green township, and Mrs. Elizabeth Harden of Perry county survive him. The funeral will be held Sunday at 1 o'clock, the burial to be made in Fairmont cemetery.

W. E. JONES.

(Cambridge Jeffersonian.)
W. E. Jones, one of the active business men of the city, died at his home on North Fifth street after an illness lasting about two weeks. The cause of death was heart trouble, brought on by a severe attack of the grip. Mr. Jones was born in Licking county and was 49 years of age at the time of his death. He had been a trusted employee of the C. R. Parish Co., who have a number of installment stores over the country, and was in charge of the company's store in Newark before coming to this city about three years ago, when their local store was opened. He was a member of the M. E. church in Cincinnati and was also a member of the K. P. and Woodmen orders. He is survived by his wife. The funeral took place at Homer, Licking county.

MRS. SOL. WATSON.

(From the Arcolian, Arcola, Ill., January 25.)

The funeral of Mrs. Sol. Watson was held at the Baptist church Saturday afternoon, January 25, at 1 o'clock, Rev. Mr. Steadman, the pastor, officiating. An unusually large congregation was in attendance. The services were solemn and impressive and there were many testimonials of love and affection for the deceased.

Louisa Scates was born near Granville, Ohio, March 20, 1844, and came to Arcola in 1859. She was married to Solomon Watson on February 7, 1864. One child, Earl, was born to them. Death occurred on the morning of January 16, 1908. Her husband and son Earl, Everett Watson, Mrs. Alby Ghene and a nephew, Willis Scates of Decatur, are left to mourn her loss.

Mrs. Watson lived in or near Arcola for almost half a century and her friends are almost co-extensive with the population of the community. She was possessed of a strong Christian character and a kindly sympathetic nature. She united with the Baptist church in the year 1866, and was the teacher and organist of the Sunday school for 20 years. She was always the pastor's helper, and her judgment has been of great value to all the men who have led the church during the most of its history.

In her death the church loses its oldest member but her memory will ever be cherished by all her brothers and sisters. Her heart was cheered and comforted by the prospect of having a new church house, but she has gone to the upper and better assembly and has taken possession of the house, not made with hands, eternal.

The older residents of the northern part of Licking county will remember Mrs. Watson, as she was the daughter of Mr. and Mrs. Silvanus Scates, who lived near Fredonia. She was also a niece of Mr. A. K. Abbott, who lives on Buckingham street, in this city.

MRS. WARTHEN'S FUNERAL.

The funeral of Mrs. Sarah Warthen who died at her home in St. Louisville, Wednesday night, will be held at the Lutheran church of that place Saturday at 10 a. m. standard time. Rev. Mr. Stuenkel will officiate, and interment will be made in the Evans cemetery.

FUN TO CURE GRIP.

Physician Prescribes Laughter, Not Whisky and Quinine.

OPTIMISM CHIEF ANTIDOTE.

Dr. Leavitt of Chicago Declares He Uses Laughter Treatment With Gratifying Results—How High Spirited and Cheerful Mind Tono Up Disease Resisting Force.

An absolutely unheard of and astounding theory was advocated recently by Dr. Sheldon Leavitt of Chicago. He said that laughter is the best cure for grip.

Dr. Leavitt declared that he is using this treatment on his patients with gratifying outcome and has advanced it past the stage of abstruse calculation to the reality of a daily practice, says the Chicago American.

Dr. Leavitt, in a sentence, thinks "optimism is the antidote for the grip microbe."

This conclusion is not based on the "mind over matter" theories, nor has it a fiber of faith healing in its fabric. He explains it on pathological reasoning as follows:

"There is in the body of every human being, especially every city bred person, raised in an atmosphere of smoke and hurry and poor ventilation, the germ of every disease that flesh is heir to.

"Why, then, has not every one, according to this hypothesis, typhoid fever, malaria, scarlet fever, etc.?"

"Because the resisting force is able to defeat the germs and keep them subjected until the resistance lags or weakens, and then the microbe which is the most powerful (this is the grip germ now because of atmospheric conditions) grips the subject, and he is conquered.

"This resisting force is the nervous system, and on the strength and tone of this system is based the degree of resistance within the body. The brain is the center of this system, and the brain is in strong or depleted tone according as the spirits are high, the courage strong and optimism reigning or the spirits depressed, cowardice in command and pessimism flourishing.

"Therefore laughter, which keeps the spirits high and the mind cheerful, keeps the nervous system at its highest tone, makes the resistance most powerful and curbs the disease germ, which at this season and in this climatic state is most pronounced in the form of the grip microbe."

In thus evolving the amazing practice of prescribing fun to cure grip Dr. Leavitt accepts a germ theory entirely removed from the one generally adopted by the medical profession.

He regards the disease germ as something within the human body, ready to spring at the moment of depleted vigor as against the more common belief that germs live in the air, are breathed in and thus attack the body and are passed through breath, expectoration and even contact as a contagion.

Dr. Leavitt cited an instance of one woman patient who not only was a grip sufferer, but who in addition was of low vitality through a wasting chronic ailment. She came to his office complaining that she was feverish, her throat ached, and her bones felt as though she had been beaten.

Dr. Leavitt found that she showed every symptom of a typical grip case.

"Go out and laugh," he told the astonished woman, who, he says, expected to be put to bed with fannels, on hot punches and half rations.

"The woman walked out and followed instructions," says Dr. Leavitt. "She made herself feel cheerful and think humorous, pleasing thoughts. Within twenty-four hours she had nothing but a tickling in the throat, which soon departed."

Dr. Leavitt added that he knows of no drug that will cure grip. He said that many physicians, though not as thoroughly given to the theory as he himself, follow it in general effect by giving the patient some harmless medicine calculated to have no effect except to make the patient think he is swallowing a medical remedy, then effecting cure by ordering sunlight and cheerful surroundings and letting nature work out the cure on that line.

CHILDREN AS TEACHERS.

Chicago's Famine Instructors Compels a Novel Substitution.

A new type of schoolmaster has come to rescue the Chicago school system from the toils of the "teachers' famine" which has been crippling its work, says a Chicago dispatch. The age of the new pedagogues averages somewhere around fourteen years.

In scores of schoolrooms throughout the city of Chicago where it has been impossible to provide substitutes for teachers who were absent privileged pupils have been put in charge of the class rather than have the children dismissed to spend the day in the streets. The usual programme of study and recitation periods has then been carried out.

Chance For Title Seekers.

The Chinese government is considering the sale of honorary titles, and it is suggested, says the Peking correspondent of the Shanghai Mercury, that the title of marquis might be sold for a million taels.

New Adage by John W. Gates.

"When the American people start in to wear their old clothes," says John W. Gates, "it does not take long to bring business back to normal."

Rich Hair

You may easily lose your hair by using Sea politics or North Pole explorations, but you cannot lose it by using Ager's Hair Vigor. The hair promptly yields, becomes looking head of hair. Ager's Hair Vigor is the natural exponent of intelligent hair culture. The hair promptly yields, becomes manageable, and appears well.

Invention to Eliminate Types.

An invention to discard the whole process of typesetting in the use of printing has been perfected by Gustavo Germani, a young Italian, who has been working upon his models for several years in Pittsburgh. Application has been made for patents covering his ideas. The invention is calculated to revolutionize the art of printing, says the Pittsburgh Dispatch. Type forms will be formed in relief on the metallic plates used on printing presses and consist of writing on the surface of the plate with "etching ground" and then subjecting it to the "cutting" action of acid whereby that portion of the plate which has not received the "etching ground" is eaten away, causing the type to stand out in relief. The reading of proof is made easy by placing the plate under a mirror inclined at an angle of forty-five degrees. Imperfections in the type are quickly discerned and can be corrected without trouble.

A London fog means not only great loss of business to the railroads but greatly increased operating expenses.

DO YOU ENJOY YOUR MEALS?

One of the Most Important Questions to Consider in the Search for Happiness and Health.

The burning question, to you is, "Are you getting out of life all the pleasure and the health you are entitled to?" If not, why not?

No matter whether every organ and member of your body is in a sound state of health and strength, if your stomach is any way disordered, you are not going to be "yourself." You are going to be a worried, out-of-sorts, nervous or sullen individual, whose actions will reflect your condition inside, and people will naturally avoid you.

The world wants to smile and be cheerful, and unless you are cheerful and smile, at least, occasionally, you will have few friends, fewer opportunities, no success, and you will go down in defeat, defeated by dyspepsia and a bad stomach.

A good and thorough digestion has a quick, wonderful reaction upon the brain. You must have noticed it many times, for the brain and stomach are as intimately connected as a needle and its thread, one can hardly be used to advantage without the other. If your stomach is slow and lazy in digesting your food, it will produce at once a slow, lazy and cloudy influence upon your brain. Mark it! If your stomach has absolutely quit work, and fermentation is poisoning your vitals as a result, surely your brain is going to be sluggish and correspondingly depressed. No one need tell you that.

But why continue to suffer all the miseries and torments that a disordered stomach brings you?

If your stomach can not digest your food, what will? Where's the relief? Where's the cure?

Stuart's Dyspepsia Tablets are the relief and the cure. Why? Because, as all stomach troubles arise from indigestion and because one ingredient of Stuart's Dyspepsia Tablets is able to THOROUGHLY and COMPLETELY DIGEST 3,000 GRAINS of any kind of food, doesn't it stand to reason that these little Dyspepsia Tablets are going to digest ALL the food and whatever food you put into your stomach? Science nowadays can digest food without having to use the stomach for it. And Stuart's Dyspepsia Tablets are the result of this scientific discovery. They digest and digest thoroughly and well, anything and everything you eat.

So, if your stomach refuses to work or can't work, and you suffer from eruptions, bloat, brash, fermentation, biliousness, sour stomach, heartburn, irritation, indigestion, or dyspepsia of whatever form, just take one or two of Stuart's Dyspepsia Tablets, and see the difference. It doesn't cost you much to prove it. Then you can eat all you want, what you want, whenever you want, if you use these tablets, and you can look the whole world in the face with a smiling eye and you will have a vigorous body and a clear mind and memory and everything will look and taste delicious to you. That's life.

Get a package of Stuart's Dyspepsia Tablets at any drug store on earth for 50c a package.

Send us your name and address today and we will at once send you by mail a sample package, free. Address F. A. Stuart Co., 150 Stuart Bldg., Marshall, Mich.

IMMENSE SUMS ARE ARRIVING AT MONONGAH

For the Relief of the Widows and Orphans of Those Killed in the Awful Mine Disaster.

Fairmont, W. Va., Jan. 31.—The relief committee in charge of funds being raised for the benefit of the widows and orphans of the Monongah mine disaster report cash received to date at \$142,000, not including several thousand dollars worth of provisions and clothing sent from all parts of the central United States. The committee has sent out more than 70,000 appeals for aid, which has brought immense sums of money. About \$10,000 has been received today, with many other large contributions hourly expected, which the committee thinks will raise the total amount to \$200,000.

The Fairmont Coal company has taken in charge hundreds of dollars worth of mining tools, recovered from the mines. These are being sold at good prices to other miners. This fund is being turned into the hands of the committee. General conditions are improving rapidly. The general committee visits each bereaved family daily, supplying their wants. The committee is endeavoring to give each of the 250 widows \$200, and each of one thousand orphans \$100. Many families have asked to be sent to European countries whence they came.

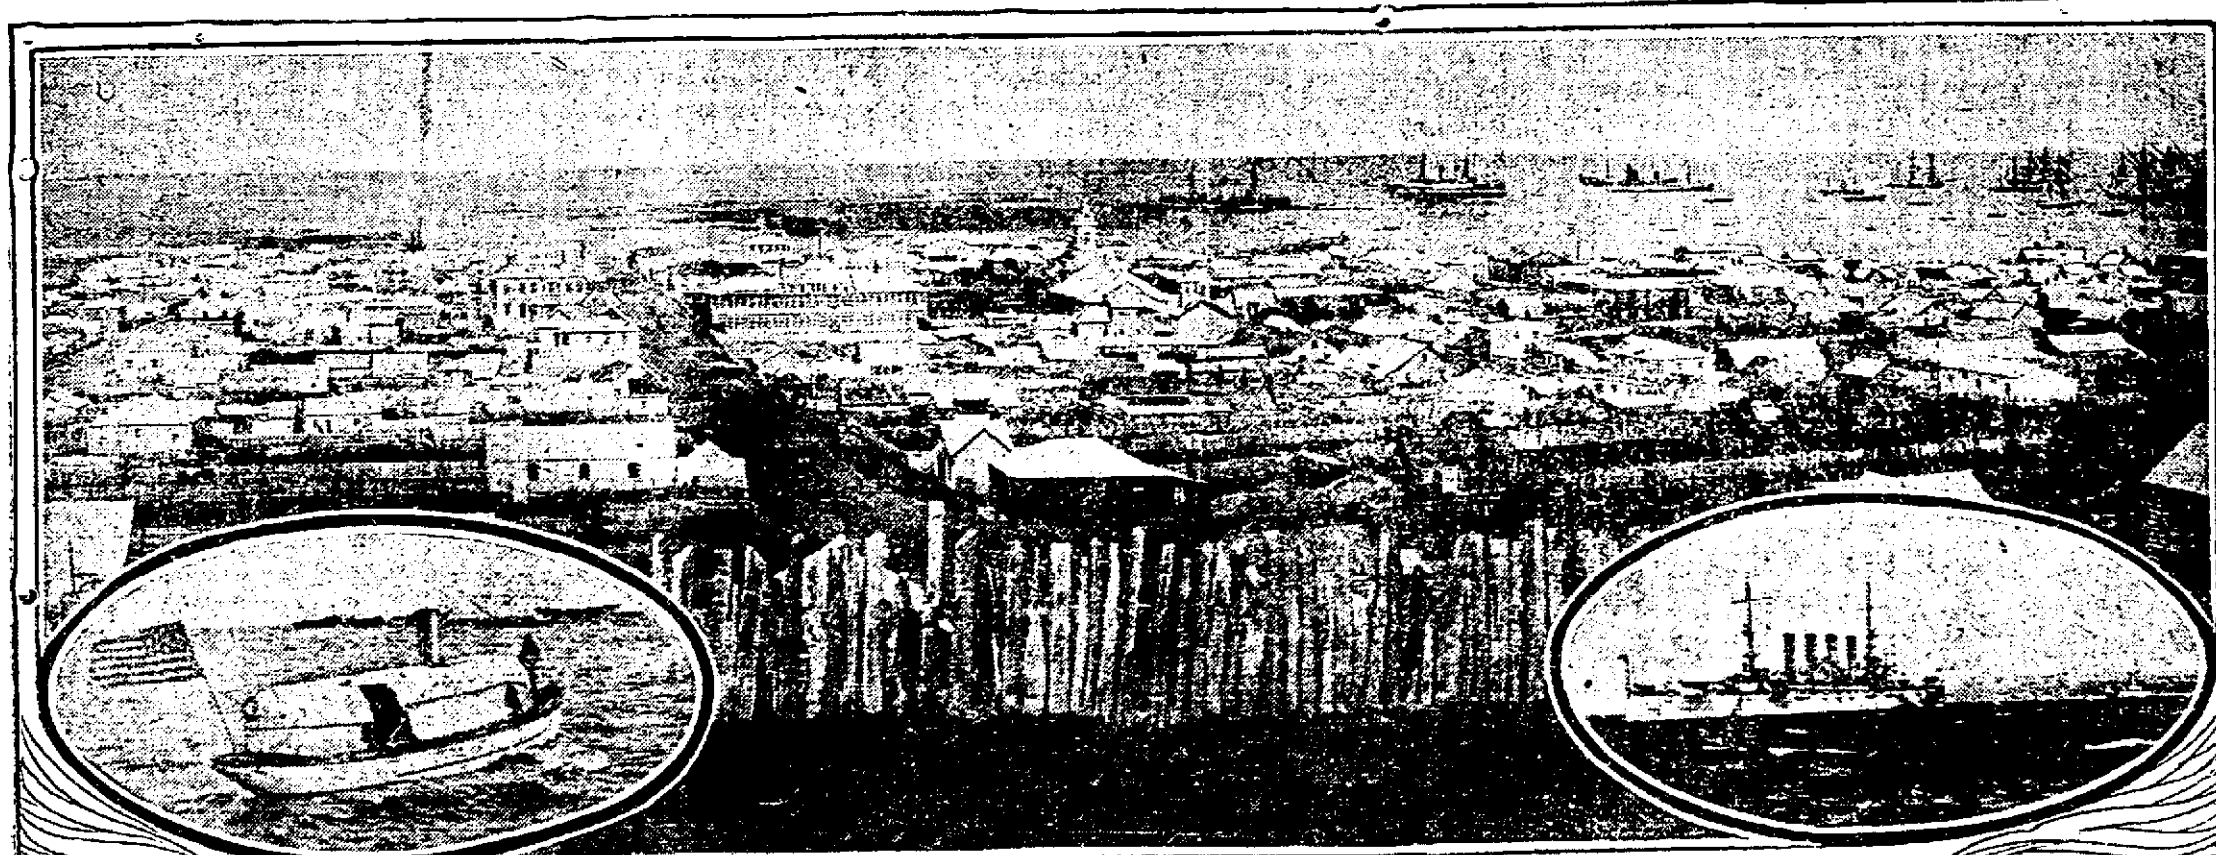

HON. W. A. ASHBROOK RENDERING AID TO BLIND VETERAN

Washington, Jan. 31.—Herbert O. Kohr, a one armed and blind veteran of the Spanish American war, was introduced to the President yesterday by Rep. Wm. A. Ashbrook of Johnstown, Ohio. Kohr is from Uhrichsville, and has come here hoping that Congress will pass a special measure for his relief. The bill making provision for him has been placed before the pension committee of the House, but as the injuries were not sustained while in service the committee declines to recommend it. In view of the many deserving circumstances Ashbrook interceded with the President for White House aid. The President shook hands with the blind soldier and directed Ashbrook to write a letter setting forth the facts. He will then make an appeal to the committee to aid the case. Kohr served six years in the regular army. He was in the China relief army, in the Philippines and Cuba, and has a splendid service record. After leaving the army he was the victim of an explosion which blinded both eyes, caused the loss of his right arm and other injuries.

LAUNCH FROM THE AMERICAN SHIPS GOING ASHORE AT PUNTA ARENAS

PUNTA ARENAS SANDY POINT—THREE CHILEAN WARSHIPS IN PORT

THE ROADSTEAD, THE TENNESSEE IN THE FOREGROUND

"That's Sandy Point," says the skipper, following the traveller's gaze to the gray blur. "Some call it Punta Arenas, but we sailors call it in our own lingo, which is the English of it,

anyway. Taking it full and by, you may say it is the toughest town on the earth. Merchant ships coaling at Sandy Point seldom get away under two or

three days, so that the wanderer has some little opportunity for preparation for the 24 hours of steaming ahead of him after leaving the world's southernmost town. By the end of

that time he will have absorbed enough "atmosphere" in both conversation and observation to fit him for the approaching demonstration. From Sandy Point for some forty miles or so the course is nearly south. Fresh-

water Bay, containing a small Chilean post, is soon disposed of, and then on the port hand the wanderer loses sight of the land as Useless Bay, across on Terra del Fuego, opens up its broad mouth.

WANT DEED

TO PERMANENT ENCAMPMENT
GROUND GIVEN TO BOARD
OF TRADE.

Senator Atwell Introduces a Joint
Resolution to This Effect in the
Ohio Senate.

Regarding Senator Atwell's resolution authorizing the governor to deed back to the Board of Trade of Newark, the old State Military Grounds here, and the intimation made on the floor of the Senate that the State had bought this ground, and that it was not the gift of the city of Newark, a prominent member of the Board of Trade was seen by an Advocate representative. He said that when the land was turned over to the State of Ohio it was given without any consideration, except that it was expressly provided that it was to be used as a permanent encampment ground by the State of Ohio. The deeds conveying the land to the State contained a provision that in case the State failed to use the ground for that purpose it was to revert to the Board of Trade of Newark. As everybody knows, the State has abandoned the ground for military purposes and the Board of Trade is simply desirous of having it turned back to it in accordance with the provisions of the deed. The Board of Trade, for the past several months, has been making strenuous efforts to have the proposed Home for Crippled Children located on this site, but those having the locating of the home in charge, having made no decision as yet, the Newark Board of Trade takes the stand that the Legislature should pass the resolution introduced by Senator Atwell to deed back to the Board of Trade of Newark the Permanent Encampment Grounds. Should the resolution pass the Newark Board of Trade will still stand ready to donate the site for the Home for Crippled Children.

For a mild, easy action of the bowels, a single dose of Doan's Regulax is enough. Treatment cures habitual constipation. 25 cents a box. Ask your druggist for them.

PLACE BLAME

FOR BOYERTOWN HORROR AND
CORONER ASKS FOR ARREST
OF TWO PERSONS

Charges Woman Who Gave Enter-
ment and Factory Inspector
With Negligence.

Reading, Pa., Jan. 31.—It is expected that District Attorney Schaefer of this county, will at once give heed to the verdict of the coroner who investigated the Boyertown holocaust, and order action relative to Mrs. H. F. Monroe of Washington, D. C., and Harry M. Bechtel of Reading. Mrs. Monroe gave the enter-ment, and Bechtel is the deputy factory inspector of this district. Mrs. Monroe did not attend the inquest on the ground of nervous prostration.

The verdict of the coroner declared that the primary cause of the accident in which 169 lives were lost was the employment by Mrs. Monroe of an inexperienced operator of the calcium light and the laxity of Bechtel in not seeing that the opera house was properly equipped with fire escapes. The verdict requests the arrests of these persons on the charge of criminal negligence.
